

Hip Navigation

CELEBRATING THE 1-YEAR ANNIVERSARY OF JOINING THE DEPUY SYNTHES FAMILY

Why VELYS™ Hip Navigation?

VELYS™ Hip Navigation* allows for **simple pre-operative planning** without the need for CT scanning, provides an added check with **real-time and accurate feedback** for acetabular inclination and version, and fine tunes both leg length and offset measurements in a **time-efficient** manner through its ONETRIAL™ Analysis."

— Cameron Cooke, MD
Orthopaedic Surgeon
Brisbane, Australia

OVER **50,000** CASES PERFORMED GLOBALLY AND GROWING
